

“Long Beach Gifted Students Study the Stock Market”

Gifted students in the Long Beach School District studied the Stock Market this past year. Students in grade 5 learned the basics of tracking and researching a stock. In grade 6, students participated in the Mississippi Stock Market Game. Students use many gifted process skills throughout their study of the Stock Market: communication, critical thinking skills, research, group dynamics, and interdisciplinary connections to math benchmarks in grades 5-6.

Elvis Gates, State Farm agent, mentored and sponsored grade 6 gifted students in the Mississippi Stock Market Game.
